TECH-ARROW

Who we are

TECH-ARROW was founded with the goal to create a **unified and modern archive and backup solution** meeting all future needs of the rapidly changing world of **data security and retention**. The experienced founding members of the team came together in 2010, pooling their experiences in the archiving field to work towards this shared vision.

We have been continuously growing since then to meet our goal of technological evolution in the world of secure **data archiving**, **intelligent backups**, and **secure data migration**. During this time, we have also worked on expanding our wide range of products to best represent the needs of our clients and reflect developments in a rapidly evolving market.

Operating globally, with over a thousand clients representing a variety of industries, TECH-ARROW stands ready and waiting to help your organization tackle your data migration, archiving or data backup needs.

What we offer

contentACCESS
Next generation of email archiving

contentACCESS

contentACCESS is our flagship solution, combining a backup and archive into a single unitary solution. Offering a structured and intelligent archive in either cloud, on-premises and hybrid form, contentACCESS can adapt to the needs of a customer while preserving the core – offering powerful backup and data retention options backed up by a comprehensive full-text search system and EU GDPR compliance options. All of this is accessible through a variety of platforms, including our Outlook and MS Teams integration options and web access portal – with all archived data from all sources available in one place. Increase your data security, maintain business continuity and reduce data load – all in one package!

contentGATE
Reliable and secure migration of mailboxes and email archives

contentGATE

contentGATE is TECH-ARROW's migrator tool, allowing you to easily, safely and efficiently transfer your archived emails, mailboxes, files and other data from any 3rd party archiving solution to either contentACCESS on-premise or Cloud, Microsoft 365 or other supported archives. The process is automated and completely under your control, and our team is with you every step of the way from the initial proof-of-concept to the final check and audit.

Productivity Tools

Storage Optimizer
Storage Optimizer for Microsoft 365 - controlling costs and data

◗ Storage Optimizer

Discover more about your data with TECH-ARROW's Storage Optimizer - your best bet for analyzing and offloading data stored on SharePoint, MS Teams and OneDrive. View your data load, filter it by file type and by site, and identify where and how you can best save on space. Bring your data and your costs under control!

officeGATE
Productivity tool for better performance and work balance

✈ officeGATE

officeGATE represents a new benchmark in productivity tools and Outlook add-ons. With officeGATE you can manage your files, attachments, and emails directly in your mailbox. You have access to your Office 365, SharePoint, MS Teams, and OneDrive data, as well as your contentACCESS archive directly in Outlook. You can drag and drop files, switch between tree and list view, copy documents between systems or send them as attachments, links or ZIP packages. You can open, create, and delete folders and documents without leaving your Outlook, maximizing the utility you can draw from one window. Upgrade your Outlook utility like never before!

Winshortcutter
Collection of utilities to help you work in a Windows dominant office environment

◣ WinShortCutter

Winshortcutter presents new opportunities for collaborating in an office environment mixing Windows and MacOS computers. Open Windows shortcuts (.lnk files) natively on your Mac, greatly easing sharing across the platforms. Increase your productivity with this easy productivity. It doesn't only improve your work experience in a Windows-MacOS environment, but also acts as a transparent gateway to access archived files in contentACCESS.

teamsTALK
